

Ntsako Ndumiso Shibambu

Profile

I am a passionate and detail-oriented BCom Information Systems Graduate obtained from the University of Johannesburg. I possess a strong foundation in programming and software development. I have experience in building and managing both web and mobile applications using various programming languages and technologies, including Python, C#, JavaScript, HTML CSS, SQL Server, Firebase, and React Native. I am always eager to learn and work on innovative projects that push the boundaries of technology. I thrive in collaborative environments and am committed to delivering high-quality, user-centered solutions.

Personal Details

Names:	Ntsako Ndumiso Shibambu
Date Of Birth:	23-11-2003
Contact Number:	0659817977
Email Address:	ntsakosako643@gmail.com
LinkedIn:	www.linkedin.com/in/ntsako-shibambu-15023b325
Home Address:	3198 Shinkova Street, Meadowland Zone 10, 1852
Gender:	Male
Marital Status:	Single
Languages:	English, Afrikaans, Xitsonga, IsiZulu
Driver's License:	Code 10

Education

Highest Grade Passed:	Grade 12
Subjects:	Mathematics, Physical Sciences, Life Sciences, Life Orientation, Afrikaans FAL, English, Computer Application Technology
Year Completed:	2021
Tertiary:	University of Johannesburg
Course:	Bachelor Of Commerce Information Systems

SKILLS & COMPETENCIES

- Programming Languages (C#, Python)
- Database Design & Management (SQL, Firebase)
- Object-Oriented Programming (OOP)
- Microsoft Office (Word, Excel, PowerPoint)
- Agile & Scrum Methodologies
- Version Control (GIT)
- Web Development (HTML, CSS, JavaScript)

- Problem Solving and Critical Thinking
- Continuous Learning and Improvement
- Communication and Interpersonal Skills
- Creativity and Innovation
- Collaboration and Teamwork

Projects

Health And Fitness App (<https://github.com/ntsako1804/Final-project>)

React Native, Firebase

- Developed a mobile app that tracks fitness progress and provides personalized meal plans and exercise recommendations.
- Integrated Firebase Authentication and Firestore for user management and data storage.
- Utilized ExerciseDB API (via RapidAPI) to display exercises and the Edamam API for the food database.
- Role: Developer

College Management System

C#, SQL Server

- Created a comprehensive system to manage student records, courses, and faculty data for a college.
- Designed a user-friendly interface and backend logic to handle large amounts of data efficiently.
- Implemented SQL Server to manage data storage and retrieval, ensuring security and reliability.

Data Center Application (<https://max599.itch.io/data-center>)

C#, Unity

- Built a simulation of a data center using C# and Unity to manage servers, networking, and resource allocation.
- Designed 3D interfaces for monitoring and managing virtual hardware and software systems.

Agile Methodology Game (<https://max599.itch.io/agile-stakeholder-challenge>)

Ren'Py

- Developed an educational game to teach Agile Methodologies to users.
- Created interactive storylines to simulate project management scenarios using Agile principles.
